

The Complete Price List

Note

The prices listed in our price catalogue are approximate and intended to serve as a baseline for estimation purposes. The actual cost for our services may differ based on several factors, such as the project's complexity, timeline, specific client preferences, and any additional features required. We encourage you to contact our team for a precise and tailored quotation.

Personalised Tech Assessment

Comprehensive Technology Audit and Assessment

From €500

Gain insights into your entire technology ecosystem with a thorough audit and assessment. We'll analyse your current hardware, software, and network infrastructure to identify areas for improvement and optimization.

Evaluation of Security Measures

From €350

Assess the effectiveness of your current cybersecurity measures, including firewalls, antivirus software, and data encryption. We'll identify vulnerabilities and recommend solutions to enhance your security posture and protect against cyber threats.

Customised Recommendations for Optimization and Improvement

From €250

Our experts will provide personalised recommendations to optimise and enhance your technology setup. Whether improving your workflow efficiency or enhancing your digital security, we'll develop customised strategies to maximise the effectiveness of your technology use.

Personalised Tech Assessment

Roadmap for Technology Upgrades and Enhancements

From €400

Our team will create a personalised roadmap to guide you through technology upgrades and enhancements. The comprehensive plan will outline the steps needed to modernise your IT infrastructure, including software and hardware upgrades, adoption of new technologies, and more.

Software License Management

From €200

Ensure compliance and optimise costs with personalised software licence management. We'll assess your current software usage and licensing agreements to identify opportunities for cost savings and efficiency improvements tailored to your specific needs.

Cloud Readiness Assessment

From €300

Determine your readiness for cloud adoption with a detailed assessment of your current technology setup and workflows. We'll evaluate scalability, security, and data governance to develop a personalised cloud strategy that aligns with your requirements.

Personalised Tech Assessment

Data Privacy Compliance Review

From €450

Ensure compliance with data privacy regulations such as GDPR and CCPA by thoroughly reviewing your data handling practices. We'll assess your current processes and procedures to identify non-compliance areas and recommend personalised remediation strategies tailored to your unique situation.

Business Continuity Planning

From €600

Mitigate the risk of downtime and data loss with a customised business continuity plan. We'll assess your current disaster recovery capabilities and develop a personalised plan to ensure continuity of operations in the event of a disaster or disruption, explicitly designed for your individual needs.

Home Office Setup and Optimization

Consultation on Selecting Proper Hardware and Software

From €150

Our experts will guide you through selecting the ideal hardware and software tailored to your home office needs. From computers to peripherals, we'll ensure you have the right tools for maximum productivity.

Configuration of Computers, Printers, Scanners, and Peripherals

From €200

We'll handle the setup and configuration of your devices, including computers, printers, scanners, and other peripherals. Our goal is to streamline your workflow and ensure seamless connectivity.

Integration of Productivity Tools

From €100

We'll integrate essential productivity tools such as email, office suites, and collaboration software into your home office setup. Whether working solo or collaborating with a team, we'll ensure you have the tools to stay productive and efficient.

Home Office Setup and Optimization

Home Office Security Audit

From €250

Ensure your home office is protected from cyber threats with our comprehensive security audit. We'll assess your current security measures, identify vulnerabilities, and recommend personalised solutions to keep your data safe and secure.

Remote Access Setup

From €180

Stay connected to your work from anywhere with our remote access setup. We'll configure secure remote access solutions, allowing you to access your files and applications from any device, ensuring productivity even when you're on the go.

Customised Ergonomic Solutions

From €300

Our team will assess your workspace's ergonomics and provide tailored recommendations to enhance comfort and reduce strain. From ergonomic chairs to adjustable desks, we'll help you create a workspace that supports your health and well-being.

Cybersecurity Solutions

Cybersecurity Risk Assessment and Analysis

From €500

Our experts will thoroughly assess your digital environment to identify potential cybersecurity risks. We'll analyse your systems, networks, and processes to pinpoint vulnerabilities and develop a comprehensive risk mitigation strategy.

Installation and Configuration of Antivirus Software and Firewalls

From €300

We'll install and configure robust antivirus software and firewalls to protect your devices and networks from malware, viruses, and other cyber threats. Our goal is to provide proactive defence mechanisms to safeguard your digital assets.

Implementation of Secure Password Management Solutions

From €200

Enhance digital security with secure password management solutions. We'll help you implement encrypted password vaults and multi-factor authentication methods to protect your accounts and sensitive information from unauthorised access.

Cybersecurity Solutions

Training on Safe Browsing Habits and Recognizing Phishing Attempts

From €150

Empower yourself with knowledge on safe browsing practices and phishing attempts. Our training sessions will educate you on identifying suspicious links, emails, and websites, empowering you to navigate the digital landscape safely and confidently.

Encryption Solutions for Data Protection

From €400

Protect sensitive data with encryption solutions that safeguard information at rest and in transit. We'll implement robust encryption protocols to ensure that your data remains confidential and secure, even in the event of a breach.

Incident Response Planning and Support

From €600

Prepare for cyber incidents with comprehensive incident response planning and support. We'll develop customised response plans tailored to your needs and provide guidance and support in a security breach or cyber attack.

Cybersecurity Solutions

Continuous Threat Monitoring and Detection

From €700

Stay ahead of emerging cyber threats with constant monitoring and detection services. Our advanced monitoring systems will scan your digital environment in real-time, identifying and alerting you to potential security breaches or suspicious activities, allowing for proactive response and mitigation.

Personalized Cybersecurity Education

From €250

Enhance your knowledge of cybersecurity best practices with our customised education programs. We'll provide engaging and interactive training sessions covering data security, social engineering awareness, and incident response protocols, empowering you to protect yourself against cyber threats and safeguard your digital identity.

Data Backup and Recovery

Setup of Automatic Backup Solutions for Data Protection

From €200

Safeguard your valuable data with automatic backup solutions. We'll set up automated backup processes to ensure your files are regularly backed up, minimising the risk of data loss and providing peace of mind.

Configuration of Onsite and Offsite Backup Strategies

From €300

Protect your data with comprehensive backup strategies. We'll configure onsite and offsite backup solutions to ensure redundancy and resilience, allowing for quick recovery during hardware failure, disasters, or cyber-attacks.

Data Recovery Services in Case of Hardware Failure or Accidental Deletion

From €400

Accidents happen, but your data doesn't have to be lost forever. Our data recovery services can retrieve lost or deleted files caused by hardware failure, accidental deletion, or other unforeseen circumstances, minimising downtime and restoring access to critical data.

Data Backup and Recovery

Guidance on Maintaining Data Privacy and Compliance with Regulations

From €250

Ensure that your data handling practices comply with regulations and industry standards. We'll guide you on maintaining data privacy and compliance, helping you navigate complex regulations such as GDPR and HIPAA to protect sensitive information and avoid costly penalties.

Regular Backup Monitoring and Maintenance

From €150

Ensure the reliability and effectiveness of your backup solutions with regular monitoring and maintenance. Our experts will monitor backup processes, verify data integrity, and perform routine maintenance to keep your backup systems running smoothly and efficiently.

Disaster Recovery Planning and Implementation

From €600

Prepare for unexpected disasters with comprehensive disaster recovery planning and implementation. We'll work with you to develop customised disaster recovery plans tailored to your specific needs, ensuring quick and effective recovery during natural disasters, cyber-attacks, or other emergencies.

Data Backup and Recovery

Cloud Backup Solutions

From €350

Take advantage of the scalability and accessibility of cloud technology with our cloud backup solutions. We'll set up secure cloud backup services to store your data offsite, providing added protection against physical threats and enabling seamless access to your files from anywhere, anytime.

Backup Encryption for Enhanced Security

From €200

Protect sensitive data with encryption solutions for your backups. We'll implement robust encryption protocols to encrypt your backup data, ensuring it remains secure and confidential, even if it falls into the wrong hands.

Backup Testing and Validation

From €100

Validate the reliability and effectiveness of your backup solutions with regular testing. Our team will conduct backup testing exercises to verify data recoverability and identify potential issues or vulnerabilities, allowing for timely resolution and peace of mind.

Device Setup and Troubleshooting

Assistance with Setting Up Smart Home Devices

From €50

Simplify the setup process for your smart home devices with our assistance. We'll help you connect and configure your devices for seamless integration into your home network, whether smart thermostats, cameras, or virtual assistants.

Migration Assistance for Data Transfer

From €80

Seamlessly transfer your data from old devices to new ones with our migration assistance services. Our experts will assist you in transferring files, applications, and settings, ensuring a smooth transition without losing important data.

Setup and Optimization of Home Entertainment Systems

From €100

Enhance your home entertainment experience with our setup and optimization services for home entertainment systems. We'll assist you in setting up TVs, sound systems, gaming consoles, and streaming devices, optimising their settings for the best audio and video quality.

Device Setup and Troubleshooting

Configuration of Home Security Systems

From €120

Protect your home with our configuration services for home security systems. We'll help you set up security cameras, alarms, and sensors, configuring them to provide maximum protection and peace of mind for your property.

Customised Troubleshooting Solutions

From €60

Resolve device issues quickly and efficiently with our customised troubleshooting solutions. Whether hardware malfunctions, software glitches, or connectivity problems, our experts will diagnose the issue and provide personalised solutions to get your devices back up and running smoothly.

Home Network Setup and Wi-Fi Optimization

Expansion of Wi-Fi Coverage

From €100

Expand the reach of your Wi-Fi network to cover every corner of your home with our Wi-Fi coverage expansion services. We'll assess your existing coverage and implement solutions such as Wi-Fi extenders or mesh networks to eliminate dead zones and ensure seamless connectivity throughout your home.

Integration of Smart Home Devices into Network

From €80

Seamlessly integrate your smart home devices into your network for enhanced control and convenience. Our experts will configure your smart devices to connect to your Wi-Fi network, allowing you to control them remotely and automate tasks for a smarter home.

Quality of Service (QoS) Configuration

From €60

Prioritise your network traffic for optimal performance with Quality of Service (QoS) configuration. We'll configure your router to prioritise bandwidth for specific devices or applications, ensuring a smooth and uninterrupted Internet experience, even during heavy usage.

Home Network Setup and Wi-Fi Optimization

Guest Network Setup

From €70

Provide secure Internet access for guests while protecting your main network with guest network setup. We'll set up a separate network for guests, keeping your main network secure from unauthorised access and potential security threats.

Parental Controls and Content Filtering

From €50

Protect your family from inappropriate content and manage Internet usage with parental controls and content filtering. We'll help you set up parental control features on your router, allowing you to block access to specific websites or set time limits for Internet usage, ensuring a safe and healthy online environment for your loved ones.

Cloud Services and Remote Access

Integration of Cloud-Based Accounting Software

From €150

Streamline your financial management processes with cloud-based accounting software integration. We'll help you set up and integrate accounting software such as QuickBooks Online or Xero, allowing you to manage your finances from anywhere with an Internet connection.

Migration to Cloud-Based Email Solutions

From €200

Say goodbye to email server maintenance and downtime with cloud-based email solutions. Our experts will assist you in migrating your email infrastructure to cloud-based platforms like Gmail or Microsoft Exchange Online, providing reliable email access and enhanced security features.

Training on Cloud-Based Productivity Suites

From €120

Empower yourself with in-depth training on leading cloud-based productivity suites like Google Workspace (formerly G Suite) or Microsoft 365 (formerly Office 365). Whether new to cloud-based productivity tools or looking to enhance your skills, our expert trainers will provide personalised guidance to help you make the most of these powerful platforms and boost your productivity.

Cloud Services and Remote Access

Configuration of Cloud-Based Backup and Disaster Recovery Solutions

From €250

Protect your critical data with cloud-based backup and disaster recovery solutions. We'll configure and deploy backup solutions such as Amazon S3 or Microsoft Azure Backup, ensuring your data is securely backed up and easily recoverable during data loss or hardware failure.

Introduction to Cloud-Based Voice and Video Conferencing Solutions

From €180

Enhance communication and collaboration with cloud-based voice and video conferencing solutions. We'll introduce you to platforms like Zoom or Microsoft Teams, helping you set up and configure virtual meeting rooms for seamless remote collaboration with colleagues and clients.

Setup of Virtual Private Network (VPN) Services

From €100

Ensure secure remote access to your network resources with VPN setup services. We'll configure and deploy VPN solutions to encrypt your Internet connection and provide safe access to your files, applications, and network resources anywhere in the world.

Technology Training and Education

Personalized Training Sessions Tailored to Individual Skill Levels

From €80 per hour

Our technology training sessions are tailored to meet your unique skill level and learning objectives. Whether you're a beginner or an advanced user, our expert instructors will customise the training to address your needs and ensure maximum learning outcomes.

Basic Computer Skills Training

From €100 for a 3-hour session

Gain confidence in using computers with our basic computer skills training. Learn essential skills such as file management, Internet browsing, and basic troubleshooting techniques to navigate the digital world easily.

Technology Training and Education

Advanced Software Training for Productivity Tools

From €150 for a 4-hour session

Take your productivity to the next level with advanced software training for popular productivity tools such as Microsoft Office or Adobe Creative Cloud. Our hands-on training sessions will teach you advanced features and techniques to maximise efficiency and creativity.

Cybersecurity Awareness Training

From €120 for a 2-hour session

Protect yourself from online threats with our cybersecurity awareness training. Learn to recognize and prevent common cyber threats like phishing attacks, malware, and social engineering tactics. Our training will empower you to safeguard your digital identity and data privacy in an increasingly connected world.

Smart Home Integration

Assessment of Smart Home Devices and Compatibility

From €80

Our experts will assess your existing smart home devices and their compatibility with your current infrastructure. We'll recommend integrating new devices and optimising your smart home setup for seamless functionality.

Installation and Setup of Smart Devices

From €120

Leave the installation and setup to us. From smart thermostats to security cameras and home automation systems, we'll handle the installation process efficiently and ensure that your devices are set up correctly for optimal performance.

Smart Home Integration

Integration with Voice-Activated Assistants

From €60

Experience the convenience of voice-controlled smart home devices. We'll integrate your smart home devices with voice-activated assistants like Amazon Alexa or Google Assistant, allowing you to control your devices with simple voice commands for hands-free convenience.

Training on Smart Home Apps and Voice Commands

From €100

Learn how to maximise your smart home setup with personalised training sessions. Our experts will teach you how to use smart home apps and voice commands effectively for device control and automation, empowering you to maximise the benefits of your smart home ecosystem.

Tech Support and Remote Assistance

On-Demand Technical Support

From €50 per hour

Access on-demand technical support whenever you encounter hardware or software issues. Our team of experts is available to troubleshoot problems and provide solutions to keep your devices running smoothly.

Remote Assistance

From €40 per session

Get immediate help with technical issues through remote assistance. Our technicians can securely connect to your device over the Internet to diagnose problems, perform troubleshooting steps, and guide you through real-time solutions, saving you time and hassle.

Tech Support and Remote Assistance

Help Desk Services

From €30 per incident

Reach out to our help desk for quick answers and solutions to your technical inquiries. Whether you prefer phone, email, or chat support, our friendly help desk team can assist you with any questions or issues.

Ongoing Maintenance and Updates

From €80 per month

Ensure your devices and systems' optimal performance and security with our ongoing maintenance and update services. We'll regularly monitor and maintain your devices, applying necessary updates and security patches to keep them running smoothly and protected against cyber threats.

Complete Packages

01

Starter Package

Begin your tech journey with essential solutions designed for personal users seeking optimised home setups and personalised support.

From €1,800

- Personalized Tech Assessment
- Home Office Setup and Optimization
- Basic Computer Skills Training
- On-Demand Tech Support (5 hours)

02

Essential Package

Expand your tech capabilities with additional services tailored for individuals looking to enhance productivity and security in their digital lives.

From €2,500

- **All services from the Starter Package**
- Cybersecurity Awareness Training
- Cloud Services and Remote Access
- Help Desk Services (10 hours)
- Home Network Setup and Wi-Fi Optimization

Complete Packages

03

Premium Package

Elevate your tech experience with advanced solutions crafted to meet the unique needs of individuals seeking top-tier support and comprehensive protection.

From €3,500

- All services from the **Essential Package**
- Remote Assistance Services (10 hours)
- Cybersecurity Solutions
- Data Backup and Recovery Solutions

04

Ultimate Package

Experience unmatched support and personalised solutions tailored exclusively for individuals seeking the highest level of service and assistance.

From €5,000

- All services from the **Premium Package**
- Smart Home Integration
- Priority Response Time
- Dedicated Account Manager
- Advanced Software Training
- Unlimited Tech Support
